

LITERACY | **School Uniforms and Rights**

Lesson 1: School Uniforms

Did you know that in many developing countries not having a school uniform means that you are not allowed to go to school?

Discuss with students how/why this can be a barrier to education. Many students may take education for granted, discuss that in many parts of the world education is a luxury.

Use the template to design a school uniform for a developing country or your own country.

Lesson 2: Education Rights

Junior: Write a persuasive piece on supporting education as a right

Intermediate: In class debate, poster or speeches

Education is Right vs. Education is a Privilege
