

SCIENCE | The Water Story

Teacher instructions for Primary

Discuss with students the idea of the global well- that all the water in the world is connected. Have them fill out the sheet above and use the following books as resources to support classroom discussion.

Read the book “Ryan and Jimmy” written by Herb Shoveller (Silver Birch)

- The story of how a friendship between two boys was rooted in the simple wish to bring attention to the inequalities around the world.

Read the book “One Well” written by Rochelle Strauss (Silver Birch)

- This book answers important questions about water while telling the whole story of water on Earth

The Water Story

What is water?

Who uses water?

Why is water important?

How can we take care of water?

What can you do to save water?

The Water Story

Teacher Instructions for Junior

Discuss with students the idea of the global well- that all the water in the world is connected. Have them fill out the sheet above and use the following books as resources to support classroom discussion.

Read the book “Ryan and Jimmy” written by Herb Shoveller (Silver Birch)

- The story of how a friendship between two boys was rooted in the simple wish to bring attention to the inequalities around the world.

Read the book “One Well” written by Rochelle Strauss (Silver Birch)

- This book answers important questions about water while telling the whole story of water on Earth

The Water Story

What is water?

Who uses water?

Why is water important?

How can we take care of water?

What can you do to save water (in and outside the house)?

Create a poster that could put up at school to encourage students/staff to conserve water.

OR

Write a PA jingle that could be heard during morning announcements that reminds staff and students to conserve water
